

MAIN FEATURES

"To surprise the future" is the formula that has inspired this innovative craft, which succeeds in bringing the spaciousness and luxury typical of flybridge craft to the sporting performance of an open yacht. A unique combination of distinctive design, technology and superior living solutions in a model that is ready to rewrite the rules of its category.

Sleek, single-pane side windows, a surprisingly large, highly functional cockpit, and an innovative, one piece, carbon-fibre windshield offering uninterrupted visibility for an incredible width of 3.75 metres. Technology and beauty on the move at speeds of up to 46 knots.
